

Spiritual Care

Regardless of faith or belief systems, we all experience times when we need some spiritual support and comfort. Our chaplains are honored and happy to visit with patients and their families to offer a listening ear and a warm heart. You may be dealing with difficult circumstances and feelings—but you don't have to face them alone.

Our Chaplains Are Available to:

- Listen and provide spiritual and emotional support
- Accompany those in crisis or grief
- Mark celebrations occurring in the hospital, such as blessings for newborns
- Pray and facilitate religious practices
- Help with completing Advance Health Care Directives
- Make referrals to and coordinate with community clergy

Availability
